1. Between 6 and 28 November 1950, the barracks installation in Wurzen (N 52/E 42) seemed to be occupied to capacity by troops who wore red-bordered black epaulets. On 7 November, a column consisting of a military band, seven officers, and ten units, each of 4 officers and 65 EM, left the installation. Truck was seen in the streets of Wurzen. The billeting area was surrounded by an iron fence on the south side and by a brick wall on the other sides. *
2. An ammunition shed was located between Highway 6, leading to Oschatz, and the railroad line to Riesa, about 500 meters southeast of the town perimeter. On 24 November, soldiers wearing red-bordered black epaulets unloaded wooden boxes with infantry ammunition from truck *

* Comment. The Flak Kaserne, which is the only large military installation in Wurzen, quarters elements of the 8th Gds Mecz Div. The identity of the units has not been determined. For sketch of installation, see Annex.
